Instructions

Model M1000

Quick Start

Prior to initial use, please make sure the Magnaphones™ are fully charged.

1. Turn OFF the Magnaphones.
2. Access the Bluetooth manager on your device.
3. SCAN for new devices and look for MAGNAPHONE.
4. Hold down the POWER button on the Magnaphones for about 6 seconds until it is flashing RED and BLUE.
5. Select MAGNAPHONE on your device.
6. The Magnaphones will be flashing BLUE only when successfully paired.

The Magnaphones will now automatically connect to your device when powered on and within range.

You may pair your Magnaphones with multiple devices. It will automatically connect to the first one it discovers.

General Information

Range: About 30 feet from the connected device.

Battery Life : 4 to 6 hours, depending on use and environment.

Charge Time: About 1 hour and 30 minutes.

Magnaphones utilize a Micro USB port for charging. (Cable included)

Cushions for ear pieces are removable. (Second set included)

PAIR	With Power Off, hold Power Button for about 6 seconds. Power Button will flash Blue and Red while pairing. When pairing is complete, Power Button will flash Blue only.

Wear and Operation

For optimal experience, it is recommended to charge after every use.

Power Button will pulse blue during normal operation.

The Magnaphones coil into position to provide a convenient form for storage and to provide a snug fit while wearing.

Magnaphones are weather proof (function in the rain) but not water proof (do not function while swimming).

To Wear:

1. Hold left earpiece in left hand and right earpiece in right hand. The ear piece should point away from you.
2. Extend the wire and eliminate any twist.
3. Place wire gently along the back of your head and insert the earpieces into your ear.
4. The wire should softly rest above and behind your ear, providing a comfortable and wireless listening experience.

FCC Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the device. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulations.
